Good Afternoon Sharon and Shannon,

In reviewing the index I noticed that the special notice letters that were provided to you on yesterday, to include in the OU4 AR index, are related to OU2 activities. I am relieved to find out that you have not started the Bate stamps process, and it will not be difficult to remove the following documents from the index. Please remove the following Documents that are the "Special Notices" letters for OU2:
150232, 919799, 935792, 936016, 936055, 150256, and 937263

I searched the Tar Creek files in SDMS using "Special" and was able to identify the following documents that are the "Special Notice" letters for OU4. Please include the following documents in the collection:

920922, 920921, 920920, 920919, 920918

Thanks!
